

EMMANUEL KAI HARO

Full Stack Developer | Data Scientist | Data Analyst | Project Management

emmanuelkai79@gmail.com | emmanuelharo2020@gmail.com

+254 740 583 892 | +254 793 996 201

PROFESSIONAL SUMMARY

Motivated and analytical technology professional with skills in Data Science, Data Analytics, Full Stack Web Development, and Project Planning and Management. Experienced in Python, data analysis, machine learning, data visualization, and MERN stack development using MongoDB, Express.js, React.js, and Node.js. Also experienced in project documentation, data collection, monitoring and evaluation, reporting, and progress tracking through practical project management experience. Strong problem-solving, communication, teamwork, and analytical skills, with a passion for using technology and data to develop efficient, user-focused solutions.

TARGET ROLES

- Data Scientist
- Data Analyst
- Data & Reporting Analyst
- Full Stack Developer
- Frontend Developer
- Backend Developer
- Web Application Developer
- Project Support Officer/ Project Assistant
- Monitoring & Evaluation Assistant
- IT Support / Systems Support Assistant

TECHNICAL SKILLS

Data Science & Analytics: Python, Statistics, Data Analysis, Data Cleaning, Data Visualization, Machine Learning

Full Stack Development: MongoDB, Express.js, React.js, Node.js, JavaScript, HTML, CSS, REST APIs

Development Tools: Git, GitHub, Postman, MongoDB Atlas, Vite, Tailwind CSS

Project Management & Analytical Skills: Project Documentation, Reporting, Progress Tracking, Data Collection, Monitoring & Evaluation (M&E), Record Management

Professional Skills: Problem-Solving, Communication, Teamwork, Time Management, Adaptability, Analytical Thinking

EXPERIENCE

Project Management Attachment Student

Kenya Forest Coast

June 29, 2026 – August 21, 2026

- Participated in monitoring and evaluation of tree seedlings and nursery activities.
- Supported tree planting activities and field-level project implementation.
- Assisted in collecting, organizing, and maintaining records related to tree planting activities.
- Supported preparation of project records and reports for monitoring project progress.
- Applied project planning, documentation, data collection, and reporting skills in a practical organizational environment.

Intern – Full Stack Web Development (MERN)

Future Interns | Remote

May 2026 – June 2026

- Developed web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive user interfaces and RESTful APIs for web-based systems.
- Worked with Git, GitHub, Postman, and MongoDB Atlas during application development and testing.
- Practiced software development workflows including debugging, API integration, database management, and deployment.

Standard Chartered Banking and Coverage Job Simulation – Forage

June 2026

- Completed a banking job simulation involving an annual credit review for a hypothetical sustainable drinkware manufacturer seeking expansion financing.
- Conducted quantitative and qualitative credit assessment, including market trend analysis, to evaluate the client's creditworthiness.

- Analyzed information and communicated key findings through a presentation to a credit officer.

Software Associate

Full B Cyber | On-site

April 2024 – September 2024

- Handled daily computer operations and provided customer technical support.
- Performed basic software, hardware, and system troubleshooting.
- Maintained accurate digital records and supported efficient day-to-day operations.

SELECTED PROJECTS

Hope for Life Agency – Web-Based Management System

Full Stack Web Development Project | Live Production System

- Designed and developed a full stack web-based system for Hope for Life Agency to support its organizational operations and digital presence.
- Developed the frontend using React and implemented backend functionality using Node.js and Express.js.
- Integrated MongoDB for database management and developed RESTful APIs for communication between the frontend and backend.
- Implemented features including organizational information management, contact functionality, and online payment-related services.
- Tested and debugged the system using Postman and browser developer tools before production deployment.
- Deployed the frontend and backend to cloud hosting environments and configured the system for production use.
- Managed source code using Git and GitHub and worked with environment variables, API integration, CORS, and production configuration.

Live Project: hope4lifeagency.org

Client Lead Management System – Mini CRM

- Developed a web-based system for managing client and lead information.
- Implemented frontend interfaces, backend APIs, database operations, and data management.

- Applied MERN stack development practices to build an integrated full stack application.

Personal Portfolio Website

- Developed a responsive personal portfolio website to showcase professional skills, projects, education, and experience.
- Applied modern frontend development practices and responsive web design.
- Managed the project using Git and GitHub and deployed the website online.

EDUCATION

BSc Project Planning and Management – Jomo Kenyatta University of Agriculture & Technology (Year 3.2)

Applied Data Science Lab – World Quant University (Feb 2026 – Apr 2026)

Full Stack Web Development (MERN) – Power Learn Project Africa (July 2025)

KCSE – Ikuu Boys High School (2022)

PROFESSIONAL CERTIFICATIONS

- **Data Analytics Essentials** - Cisco
- **Networking Essentials** - Cisco
- **Azure AI Fundamentals** – Microsoft, 2025
- **Full Stack Web Development (MERN)** - Power Learn Project, 2025
- **Applied Data Science Lab** - World Quant University, 2026
